---

## SUMMARY

---

Accounting professional and business owner turned web developer. Driven by my obsession with technology and love of numbers.

---

## SKILLS

---

### Languages

JavaScript, Ruby, HTML, CSS

### Frameworks/Libraries

Rails, AngularJS, JQuery

### Additional Certifications

CPA - March 2013-Present

---

---

## PROJECTS

---

### CHECKIT

#### Ruby on Rails

To-do list application utilizing Devise gem for user authentication

Implemented ajax to delete items without refreshing page

Created custom rake task to delete to-do items over 7 days old

### JAM PLAYER

#### HTML, CSS, JavaScript, AngularJS

Music player built using JS & JQuery, refactored with AngularJS

Wrote custom directive to control volume and song sliders

### NICHIPEDIA

#### Ruby on Rails

Wiki application that allows private and public wikis

Integrated Stripe third party API callouts for purchasing

Implemented Redcarpet Markdown gem for markdown-based wikis

---
